

CALL FOR 2017 FUNDING APPLICATIONS

The Hastings Cancer Trust has seen the generosity of the community translated into much needed funding for a range of projects which have supported cancer patients and clinicians within our local area.

The Trust is calling for applications for its 2017 round of funding from anyone involved in the management of cancer, or indeed community organisations that support cancer patients, cancer survivors and carers in the Hastings/Macleay.

The Hastings Cancer Trust is a registered tax-deductible not-for-profit charity. The funds donated are administered by trustees, who are local people aiming to fund local cancer projects on the basis of their value to the community.

Applications should include a detailed explanation of the funding project. Particular attention will be paid to how the project will benefit the maximum number of people with cancer. Detailed costing would provide scope for the trustees to provide part-funding for a project, where the resources were not available for full funding. Applications where other matching funding sources are outlined would be looked upon favourably.

The funding possibilities are numerous and dependent on the creativity and energy of those involved in the management of cancer in this region. Projects might include the development of facilities, support of local research efforts, funding for the education and training of both clinicians and the community, purchase of aids and equipment, and even provision for the specific needs of community groups.

Applications should be submitted to **The Hastings Cancer Trust**

- by email to hastingscancertrust@gmail.com or
- by mail to **PO Box 9272 Port Macquarie NSW 2444.**

Please note submissions **close on Friday 6th October, 2017.**

Successful applicants will be acknowledged in November 2017 at a formal presentation.

The Hastings Cancer Trust receives NO government funding and relies on community fundraising and donations.

To support the Hastings Cancer Trust financially and thereby enhance the Trustees' capacity to fund worthy projects, please send your cheque to the postal address above or contact us for our banking details.
